CROSSING THE THRESHOLD

The key aims of the Threshold Project are to be:

- **A place of welcome** – Opening up the church throughout the week and inviting the local community to enter and engage. The Threshold will become a ‘hub,’ an active centre of life and prayer outside of normal ‘worship’ times.
- **A place of community** – New facilities will encourage different user groups to enjoy the church space. A meeting area, a kitchen, an office and much-needed toilets will make St Michael’s become more welcoming and hospitable for the entire community.
- **A place of healing** – The Threshold will be offered to local care and health organisations for meetings, talks and seminars. The church environment lends itself to the pursuit of quietness and contemplation.
- **A place of creativity** - Providing a creative space where talent and beauty flourishes. The Threshold will enhance St Michael’s growing reputation as a venue for music and the arts.
