

KILN FIRING:

A SHARED CONVERSATION ABOUT OUR COMMUNAL VISION FOR A POST PANDEMIC WORLD

“Making and sharing beautiful objects from the clay that we share”

As we begin to re-emerge out of the lockdown, the church is considering how to re-connect with the community. We are thinking of the potter’s art of kiln firing the clay to make beautiful objects. We are asking two simple questions – perhaps you would like to share your responses too?

- 1. What should be lost to the kiln? What is cracked and broken in your life or in the life of the church and what needs to change?**
- 2. What are the ‘beautiful objects’ which you passionately hope will come out of the kiln?**

Please share your thoughts on how the church can become an instrument of justice and social change. What radical ideas might you have for the future of your church?

Gavin
