

# Happy New Year from St Chad's

*From Tumelo and her husband Benny:*

Happy New Year. We are receiving nice rains since yesterday. We had a nice Christmas service. After that President put us back to level 3.

We are experiencing a high level of infections per day. Deaths also are increasing at fast speed. People are not observing corona protocols. Benny's brother in law and his sibling passed on and were buried on Friday in Rustenburg. So many teachers has passed on. I have seen that in UK you have already started with vaccine, we hope it will bring down infections and deaths.

*Ringing the bell for prayer at St Chad's*

The whole world need prayers. We hope that our prayers will be heard. 2021 will bring us blessings and protection from our Lord.

We hope for better health in the whole world.

Greetings to all.

Tumie and Benny
